ANACOMP, INC. 1992 To 1995

Position: National Director of Technology Support

Responsible for Novell network and Data Center Control System (DCCS) for 57 control centers across the United States and Canada. Managed team for 24/7/365 national support system. Developed specifications for process development of DCCS system and path for future support. Worked with team support on Hewlett Packard 9000 at corporate headquarters. Also provided support to TX subsidiary for hard drive/CDROM media manufacturing.

Team Achievement:

National team leader to implement 30 Anacomp DCCS control centers in a 120-day period across the United States. Managed center implementation to include cable distribution, Novell networks and Datagraphix XFP-9000 COM machines. These centers will generate 420 million dollars of revenue annually.

BELL INDUSTRIES

1991 To 1992 Position: Senior Systems Engineer

Partner with sales team to develop project specifications and create client proposals. Install Novell NetWare network systems and maintain a diverse variety of brand computers, printers, software and CRM management systems. Certified technician on all high-end servers to include Compaq, Hewlett Packard and IBM. Also became technician repair certified on all IBM and Compaq workstations and Hewlett Packard / Lexmark printers.

Team Achievement:

Lilly Corporate Center Project

Developed support help desk program to serve the entire Financial Systems division of Lilly. Created procedures that defined a standard set of rules for hardware and software, and documented each piece of application software for DOS, Windows, OS/2 and Mac computers. Also documented and supported department data-highway including Token Ring, Ethernet, AppleTalk and 3270/5250 communications. Created call tracking system using Filemaker Pro (DOS/Macintosh platforms). Program tracks internal trouble calls, project research requests and physical inventory.

ZENITH DATA SYSTEMS

1987 to 1991 Position: Corporate Sales / ZMST Systems Engineer / Associate Manager

Joined ZDS in corporate sales. By consistently exceeding sales goals, was advanced to Associate Manager responsible for corporate sales, retail sales and service operations. Management responsibilities included daily retail operations management, establishing and managing multiple marketing projects and training program development. Service responsibilities included computer setup and repair, Novell network installation, onsite and telephone support for key corporate clients, and managing service inventory. Became one of the first one hundred Novell CNE's in the United States.

Team Achievement:

Member of two-person team for the development of the State of Indiana and Naval Avionics Center Quantity Purchase Agreements. Designed help desk program to provide turnkey support to the QPA client base. QPA team generated over 2.1 million dollars of sales and services by the end of the first quarter of program.
